

**Does gathering data to try and understand the business weigh you down?**

**You can loose the weight with Business Insights Explorer – See how during our complimentary August client web based training.**

Business Insights Explorer is the most convenient way to navigate your business. It brings ad hoc inquiry, drill-down, drill-around analysis up to a whole new level. Turn your data into knowledge that you can act on by using powerful sorting, grouping, and filtering capabilities that you personalize to your specific needs and role within your company. The purpose of our August Sage MAS 90 ERP and MAS 200 ERP Client Webinar is to provide you with information about optimizing daily decision making by demonstrating the capabilities of this new easy-to-use inquiry and analysis application available in Version 4.2.

*The seminar will show you how Business Insights Explorer makes sense of the numbers!*

- Get timely access to **key business information** in a format that is easy to read and understand.
- Easily apply query, reporting, and statistical analysis **to make faster and better decisions** for your future—this afternoon or next year.
- **Share information** with others in your organization in a **meaningful way**.
- **Easily drill around into original records** and change views for at-your-fingertips access to invoices and transactions.
- Enable a wide range of **sorting, grouping, and reorganizing functionality** with easy-to-use customization and personalization features.

Business Technology Solutions provides monthly client educational web based seminars (Webinars) as a free service to our clients to keep you informed on how to be more successful and how to take advantage of specific technology and changes in the business environment. We welcome your participation and input.
