

**Are you sure that you  
are aware of everyone  
who is cashing checks  
against your bank  
account?**

You are invited to attend a client webinar on October 1<sup>st</sup> or 29<sup>th</sup> at 11:00 AM:  
“Cash Protection, Reconciliation and Management With Sage MAS 90 & 200”

Cash and liquidity is universally important for all organizations. Monitoring the movement or use of cash, as well as protecting this resource is critical to the ongoing health of the organization. Without an efficient way to manage and reconcile cash positions, monitoring this valuable resource just doesn't happen in a timely manner.

In addition, without consistent monitoring or systems of protection cash can begin to “leak” out of the organization. With Sage MAS 90 & 200, plus specific modules and add-ons, you can begin to monitor and seal potential leaks. Join us for this informative Client Webinar to learn more.

**Check fraud? At my company? Consider the following:**

- 72% of organizations surveyed by the AFP experienced attempted or actual payments fraud in 2006!
- More than 500 million checks are forged annually in the US, with losses totaling more than \$10 billion! (Source: Ernst & Young)
- Losses from check fraud are expected to grow by 2.5 percent annually in the coming years! (Source: American Banker Magazine)
