

**Don't get reeled in during a tax audit.**  
Sage Sales Tax can help you avoid the bait.

Attend a webinar to learn how you can achieve sales tax compliance.

You are invited to attend a client webinar on September 24th, 11:00 AM:  
Minimizing Audit Risk with Bullet Proof Sales Tax Compliance Practices

Sales tax is a government-required, compulsory activity. It doesn't drive revenue and it doesn't reduce expenses. So any time or money spent on tax compliance is, by nature, non-profitable. There are more than 12,500 United States and Canadian tax jurisdictions and the rates, rule and boundaries change relentlessly (there were over 4,000 changes in 2006, alone). Keeping up with that is an operational distraction and a drag on your organization.

Sage Sales Tax has helped over 10,000 users eliminate the tedious work and complexity of calculating, collecting, reporting on and remitting taxes in multiple jurisdictions. As the leading provider of web-hosted sales tax management services, let us show you how Sage Sales Tax can dramatically reduce the risk of suffering loss or penalty as you go through a tax audit, saving you time and money.

**Join us for our complimentary client webinar and learn how to:**

- Easily achieve end-to-end sales tax compliance
- Save time by automating sales tax calculations on every transaction
- Improve productivity by eliminating rate research and maintenance
- Reduce exposure to costly audits
- Complete and submit your tax returns automatically with AvaFile Managed Returns

Business Technology Solutions provides monthly client educational web based seminars (Webinars) as a free service to our clients to keep you informed on how to be more successful and how to take advantage of specific technology and changes in the business environment. We welcome your participation and input.
